## Skills & Qualifications

- ✓ 30+ Years professional business experience
- ✓ 2 Years of front-end & back-end training in web development and project building
- ✓ Knowledge with API's & Databases
- ✓ Experienced with Headless CMS systems
- ✓ Bootcamps, Courses and Training with structured curriculum for web development.

## Tech Stack

JavaScript, ReactJs, NextJs, NodeJs, ThreeJs

ExpressJs, JQuery, RapidAPI, Firebase

Tailwind, CSS3, Bootstrap, Sanity.io, Git

Postgres, MongoDB, Mongoose, MySQL

## Soft Skills & Strengths

- **Leadership** This is 100% earned. Creating productive, innovative and positive environments with encouragement, empathy and trust.
- **Verbal and Written Communication** A 2 way street. Giving direction with confident clarity and authority or listening for better ideas or taking constructive criticism without any ego.
- **Critical Thinking** Patience is often overlooked to take a few steps back to think and listen before speaking. Problem solving whether simple or complex needs 100% commitment and drive to accomplish daily problems
- **Management- People, Time, and Projects** Accountability in these areas is essential with the humility and a humbleness to always improve.
- **Teamwork** I have been a part of many great inspiring teams over the years and 1 thing in common with them all is the understanding of everything written above.

## Projects & Accomplishments

---

🏆 Modern UI/UX Responsive Website with ReactJs and Tailwind

---

🏆 My Culinary Brand Website

---
